

Ditton Priors Parish Council

“Affordable housing policy regarding confirmation of residency or connection to the Parish”

Ditton Priors Parish Council will support any resident who is wishing to build an affordable home for themselves in the Parish of Ditton Priors.

The resident will have to provide evidence to the Parish Council clerk to show they have fulfilled the current Shropshire Council policy regarding the definition of Local before the Parish Council agrees to write in support.

Clerk will write the letter of support once the chair and four other councillors have been consulted and all agree the resident is eligible.

The request will then be added to the next available agenda and the support minuted.

This policy will be reviewed after each election or when Shropshire Council’s affordable housing policy is amended.
